

**CIRCLE
OF EXCELLENCE 2024**

**Metropolitan Orlando Chapter
Excellence in Chapter Educational Programming**

The Metropolitan Orlando Chapter embraces providing education to members, nonmembers and nursing students. The education presented is diverse, evidence based and promotes learning about our profession. A needs assessment is conducted that provides members the opportunity to voice their opinions on topics and events with a focus on professional networking, mandatory education and certification. Our plans center on monthly education sessions featuring an expert speaker and dinner for those in physical attendance, with a virtual attendance option available. Most rewarding, one of our monthly meetings features the recipient of the chapter's award for a healthy work environment project, which has also been presented at national conferences. The chapter hosts an annual hybrid certification review course featuring a national speaker, allowing nurses within and outside our chapter to benefit.
