

## **West Michigan Chapter Excellence in Chapter Collaboration**

In the spirit of "Courage to Soar," AACN West Michigan Chapter (AACN-WMC) exemplifies collaboration in many aspects of the chapter's operations, to empower nurses and create a brighter future for critical care nursing in West Michigan. As we form relationships with community partners who address food insecurity, we understand how to improve health outcomes. We are privileged to collaborate with other AACN chapters to provide educational events on Zoom. AACN-WMC partnered with nursing faculty to discuss well-being, a requested topic based on our needs assessment. We worked with corporate partners and a Pharmacy Residency Program to provide educational programs. Collaborating with a variety of individuals and organizations allowed AACN-WMC to drive transformation and soar together to improve and advance critical care nursing in West Michigan.
