**Palm Beach County Chapter
Excellence in Chapter Leadership Development**

The leaders of Palm Beach County Chapter AACN (PBC-AACN) realize the importance of planning for our future to ensure the health and continuation of the chapter. Executive goals include a succession plan and a revamped format for the monthly meetings and committees to achieve these goals. Current officers are paired with elects, and newer board members are paired with former board members and share personal goals. Monthly meetings start 30 minutes early for a “pre-game,” where leaders host and connect with each attendee and ask a monthly question. This new format resulted in record attendance and a waiting list for monthly meetings. To foster team spirit, committees were renamed teams, and chair positions were renamed leads. PBC-AACN is committed to the professional growth and development of strong leaders to deliver AACN’s mission, empowering each nurse to make their optimal contributions and improve patient outcomes.
