OF EXCELLENCE 2024**

### **New York City Chapter President's Award for Chapters**

The New York City Chapter membership represents various hospital settings and unique experiences, ethnicities and cultures. Our diverse group has exemplified the theme of "Rising Together" in exceptional ways. We rose together by integrating our key priorities of education, community service and increased membership by strengthening our relationships. We supported all levels of clinical nurses by providing continuing education that is relevant to practice. By utilizing the Nursing Network platform, we expanded our reach and enhanced communication, thereby widening our influence and participation. Through various outreach activities, we were able to provide support with health screenings, both locally and internationally, including a recent health fair in Ghana. We also promoted the profession of nursing by participating in high school career fairs. By supporting and educating each other, and sharing our knowledge, we rose together as stronger nurses.
